01 PROFILE

A young but ambitious programmer with three years of programming experience. I have a desire to improve my skills in programming and other similar areas while actively moving up the career ladder. I systematically practice at home, trying to improve my skill whenever possible. Able to adapt to any situation, can easily get along in a team, and are able to communicate with colleagues whenever it necessary. Have extensive knowledge in C#, understand OOP and structured programming language. Have strong knowledge in the field of web programming, especially in front-end, also do have solid knowledge in back-end.
